

The end of traditional education.

on line

10th of December 2020

10.00 – 14.00

We welcome the business community, local and regional governments, educational centres, research institutions, and everyone interested in the subject of education.

The New Education Forum gives the key stakeholders focused on education opportunity to:

- Prepare recommendations for the European Parliament committees related to the areas of transversal competences, youth and the labour market
- Present their ideas and anticipated projects and find potential partners to enforce them
- Join the international cross-sectorial NEF network
- Share their know-how and expertise on effective learning innovations.
